INTRODUCTION

Terminal Transfer Inc. was built from the ground up with a goal to meet all of your expectations and please you, the customer. Our experienced and dedicated employees strive to make your experience with Terminal Transfer Inc. as satisfying and seamless as possible. We understand you have many other choices of Transportation and Warehouse companies to choose from and our passion is to deliver a service that makes you feel you have chosen the right partner.

With over 350,000 sq ft of bonded warehouse space in Portland, and over 75,000 sq ft of bonded warehouse space in Seattle, we are able to offer endless possibilities no matter how large or how small your project or shipment may be. Our transportation department consists of an intermodal container division as well as an LTL division which both service the Pacific Northwest. With our own transportation fleet consisting of 40+ trucks, we are able to control the flow of product to and from our facilities which provides us with the ability to guarantee that we can deliver the highest level of service.

Our equipment fleet consists of 2, 3, and 4 axle chassis, drop axle equipped tractors, 28', 48', 53' van trailers equipped with liftgates, flatbeds, curtain vans, straight trucks, and also box vans. Our wide variety of equipment allows us to easily move 1 small carton all the way up to a 60,000 lb intermodal container.
